- 1 TTCtradecrypto.com offers simple; Amazing and affordable opportunities to increase your wealth by monetizing the volatility of this market place. our strong investment portfolio is able to provides your return on your investment every calendar day
- 2 before starting toknow about our plans you must have some basic information about the systems basic strengths

Blockchain

in real-time

blockchain is a system of recording in the way that makes it impossible to change, hack or cheat the system. a blockchain is essentially a decentralized ledger of transaction that is duplicated and distributed across the entire network of computer system on the blockchain.

SMART CONTRACTS

Smart contract

Smart contracts are simply programs stored on a blockchain that run when predetermined conditions are met. they are usually used to ensure the implementation of an agreement, therefore, all participants can be immediately certain of the outcome, without any intermediary's investment or time loss.

smart contracts do not need brokers or other intermediaries to conform the agreement, thus, they eliminate the risk of manipulation by third parties.

Forex Foreign Exchange market

forex is a global decentralized or over-the-counter (OTC) for the trading of currencies, this market determines foreign exchanges rates for every currency.

- 1 this includes all aspect of buying, selling and exchanging currencies at current or determined prices.
- 2 foreign exchange is the process of changing one currency into another currency for a variety of reasons usually for commerce, trading or tourism.

Trading

in financial markets, trading refers to buying and selling of securities such as the purchase of stock on the floor of the new York stock exchange. (NYSE)

trade increase competition and lowers world prices, which binds benefits to consumers by raising the purchasing power of their own income.

trade also breaks down domestic monopolies which face competition from more efficient foreign firms.

TTCtradecrypto

we also have 6 individual plans for each investors that invest at least 100\$ on TTCtradecrypto smart contract

All system inputs and outputs are done by Tether(TRC20)
